

Qualifications and Experience:

2008-2009: Advanced Technology Training @ Bay Area Video Coalition

Classes with award-winning and industry-certified professionals. Some of the most experienced and knowledgeable mediamakers, editors, designers and artists in the technology field today. Including:

- advanced web design, including CSS, Pod-Casting and DreamWeaver
- advanced software training (vector graphics): Photoshop, Illustrator, InDesign
- interactive animations: Flash intensive ActionScript Coding
- industry-specified workflow processes and project management

Related Professional Experience:

2007: Manager of Marketing and Online Services, Youth Service California

A statewide non-profit organization dedicated to helping California youth transform themselves and their communities through service. My responsibilities were to pioneer the use of web 2.0 tools and provide web and graphic design.

2005-2006: Quality Rater — subcontract services for Google

Evaluate web pages for relevance and identify spam according to proprietary Google guidelines. Analyze text, web pages, images and other information.

Education:

UC Berkeley (Cultural Geography BA 2000)

UC Santa Cruz (American Studies)

CLIENT

REVIEW:

"I am a novice at blogging and I did not have a clear idea of what I wanted. YCB was very patient with me and provided very prompt, efficient and courteous service to help me come up with a design I really like. The rates were par for the industry. I felt I received a great value in terms of time saved and quality of work. I endorse without any reservation."
